PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, 2027) with internship experience building Python-based automation and LLM-powered workflows for lead management, client communication and internal business processes. Strong foundation in Java, SQL, data structures, OOP and DBMS, with end-to-end projects including an NLP classifier achieving 95% accuracy on 45K+ articles. Able to translate business requirements into working software and eager to build enterprise application configuration skills.

WORK EXPERIENCE

AI & Business Automation Intern Jul 2026 – Aug 2026

Silicon Valley Touch Global | Bengaluru, India

- Developed Python-based automation solutions supporting lead management, client communication and internal business workflows.
- Built AI/LLM-powered automation workflows to streamline repetitive manual processes and improve operational efficiency.
- Translated real-world business requirements into working automation solutions, applying software development and problem-solving practices throughout implementation.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL

Automation & AI Workflows: Python scripting, business process automation, AI/LLM-powered workflows

Software Engineering Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Data & Machine Learning: Pandas, Scikit-learn, TensorFlow, Keras, NLP, Machine Learning, Deep Learning

Development Tools: Git, GitHub

PROJECTS

Fake News Detection Python | Scikit-learn | NLP | TF-IDF

- Built an end-to-end NLP text-classification pipeline covering preprocessing, TF-IDF feature extraction, model training and classification on 45K+ news articles.
- Achieved 95% accuracy using a PassiveAggressiveClassifier.

Used Car Price Prediction Python | Pandas | Scikit-learn | Random Forest

- Developed an end-to-end regression pipeline to predict used-car prices, including data preprocessing and feature preparation.
- Trained and evaluated a Random Forest model to generate price predictions.

EDUCATION

B.Tech in Computer Science and Engineering 2023 – 2027 (Expected)

Visvesvaraya Technological University (VTU) | Four-year undergraduate degree | CGPA: 8.61/10

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
